CELIA HURLBERT,
EDA FORBES,
JOHN HURLBERT,

School Board of Clarksville.

ANNUAL REPORT, TOWN OF CLARKSVILLE

SUPERINTENDENT'S REPORT

As my connection with your schools was begun in September, 1927 this, my first report must be more or less limited to that time. The first year of a Superintendent's work in any town has to be quite considerably a period of becoming acquainted with the schools and coming to know the needs and abilities of the various pupils.

During the time of my work in the Clarksville schools, I have made a total of 30 visits of supervision and inspection to the three schools of the town. The work in all the different classes has been inspected and certain standard tests given. As a result of these visits and tests, I can say that the majority of your pupils are well up to standards for their grades and years and that very good work is being now accomplished in all the schools.

At the beginning of the year an outline of work based on the State Program of study was placed in every school and this has been the main basis of work for the year.

School statistics for the last complete school year ending June 30, 1927 are as follows:

Average daily attendance	32.
Average daily absence	1.95
Percent of attendance	94.
Number of cases of tardiness	215.
Average per pupil	6.7
Number of pupils not tardy	4.
Number of pupils not absent	4.
Cost of instruction per pupil	\$69.25

ANNUAL REPORT, TOWN OF CLARKSVILLE

The percent of attendance is slightly better than last year while the number of cases of tardiness is not so high. These are both steps in the right direction and it is hoped that these marks may be still further improved during the present year.

Punctuality and regularity of attendance are important factors in a successful school system.

In closing I wish to thank the School Board, the former Superintendent and others who have so kindly assisted me in the work.

Respectfully submitted,
W. S. ADAMS

ANNUAL REPORT, TOWN OF CLARKSVILLE
